5. Ramakrishna

Guided By:

Javeed Mohammed Husnuddin

INTRODUCTION

- Due to covid 19 all the offline shopping stopped .So, the store wants to move to the online platforms .
- Online shopping is a form of electronic commerce which allows consumers to directly buy goods or services from a seller over the internet using a web browser.
- It will provide visitors a personalized experience and make the website responsive.
- The main purpose of this project is to buying and selling of goods and services, or transmitting of funds or data, over an electronic network, primarily the internet.
- There are 2 Users on the application-
 - User
 - Admin

Modules

- Module in Angular refers to a place where you can group the components ,directives ,pipes and services which are related to the application.
- We used some of the components in frontend they are:
- Admin, User
- Cart , Orders
- Categories , Search
- Products
- Stock report
- Sales report
- Wishlist
- These are some of the components we used in our project

Technologies & IDE

Technologies used:

- Angular
- Java Spring Boot
- MySQL

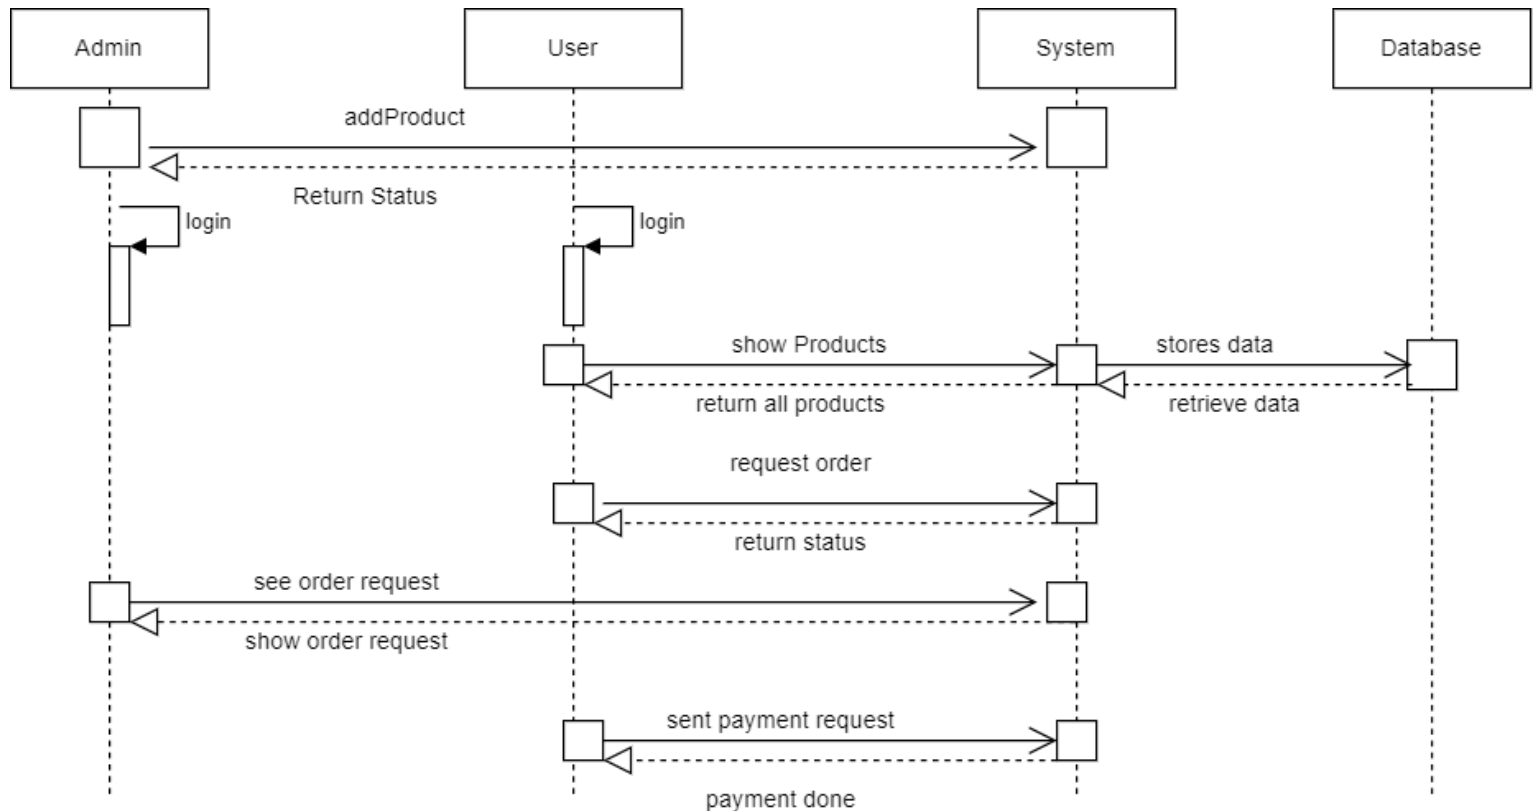

IDE:

- Vs code
- MySQL
- STS

Admin Registration

The screenshot shows a web browser window with the address bar displaying "localhost:4200/adminsignup". The page header for "SHOP FOR HOME" includes a search bar and navigation links for "HOME", "USER", and "ADMIN". The main content area features a central white box with the heading "ADMIN REGISTRATION" and a green success message "Details Saved Successfully". Below this, the registration form contains five input fields: "Name *" (filled with "srinath"), "Email *" (filled with "srinath1@gmail.com"), "Password *" (filled with "12345"), "Phone Number *" (filled with "9988776655"), and "Address *" (filled with "1-2-3"). A green "SIGN UP" button is positioned below the form, followed by a link that says "Already Registered? Click to Signin!!".

Add Discount

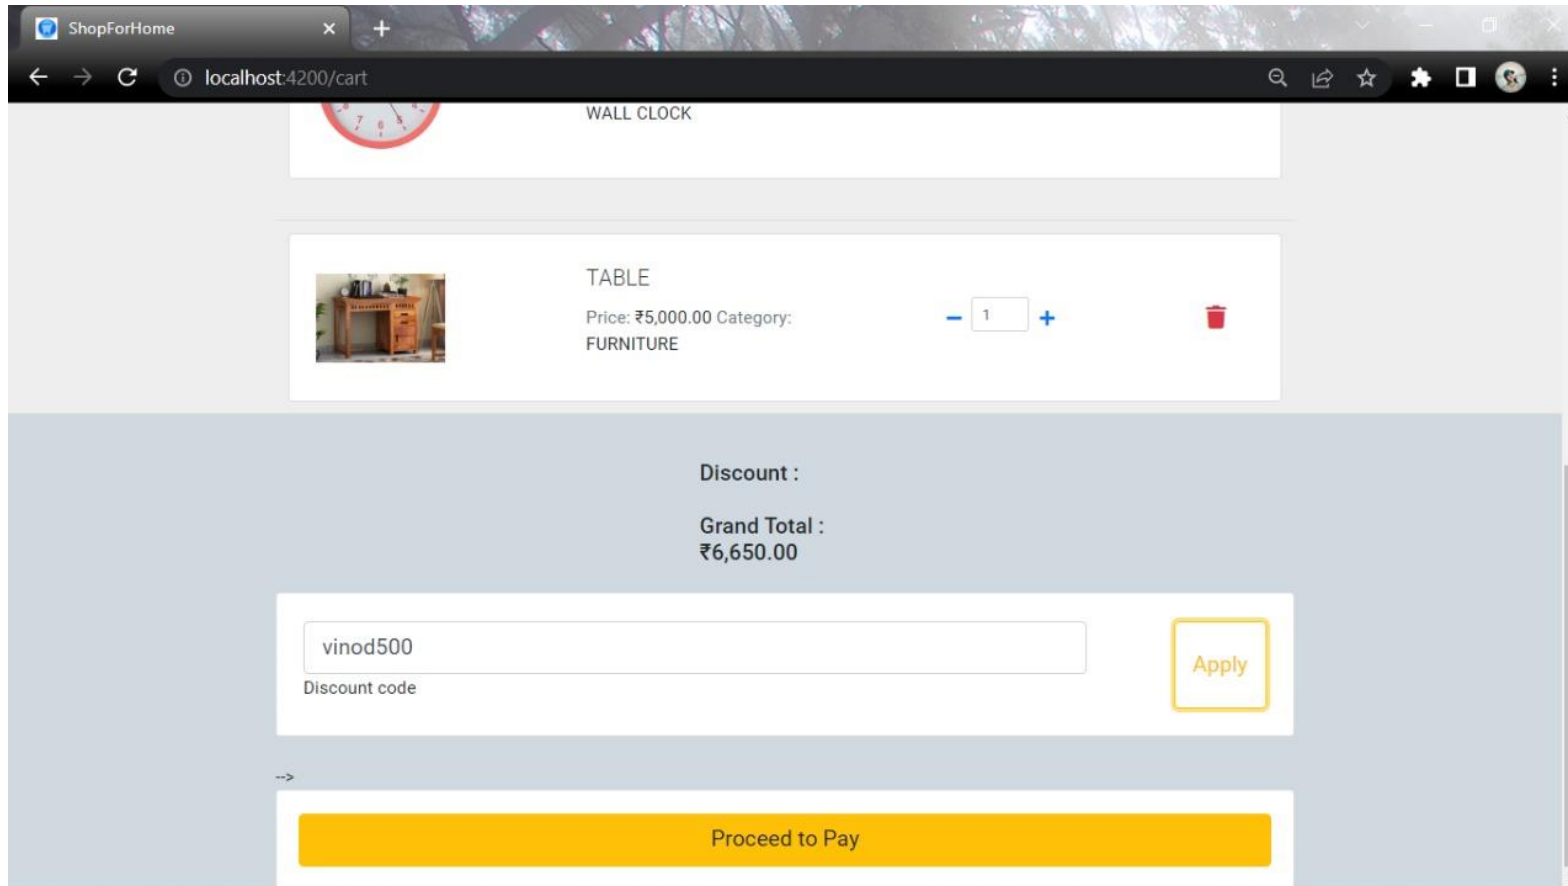

The screenshot shows a web browser window with the address bar displaying 'localhost:4200/adddiscounts'. The page has a blue header with a search bar containing the text 'Search for products, brands'. To the right of the search bar are three buttons: 'ADD PRODUCTS', 'SALES REPORT', and 'LOG OUT'. A white notification box in the center of the page displays the message 'localhost:4200 says Discount Added Successfully' with an 'OK' button. Below the notification, there is a modal window titled 'Add Discounts' with a purple 'ADD DISCOUNT' button at the top. The modal contains three input fields: 'Enter discountCode *' with the value 'VINOD500', 'Enter Discount Name *' with the value 'GANESHFEST', and 'Enter Discount Amount *' with the value '500'. At the bottom of the modal are 'Save' and 'Reset' buttons. In the background, a table is partially visible with columns labeled 'Discount Code', 'Disc', and 'Discount Amount'.
